60 | The fascination of Audi

The fuel consumption and CO_2 emission figures can be found from page 56 onwards.

In an instant, form becomes fascination.

A brief moment. The blink of an eye. Sometimes that is as long as it takes to provoke enthusiasm. One glance at the Audi A5 Sportback is enough to sense: that this is one of those moments. A coupé – completely re-interpreted. And a character which lets you discover that each moment is special from the very first metres.

The fuel consumption and CO_2 emission figures can be found from page 56 onwards.

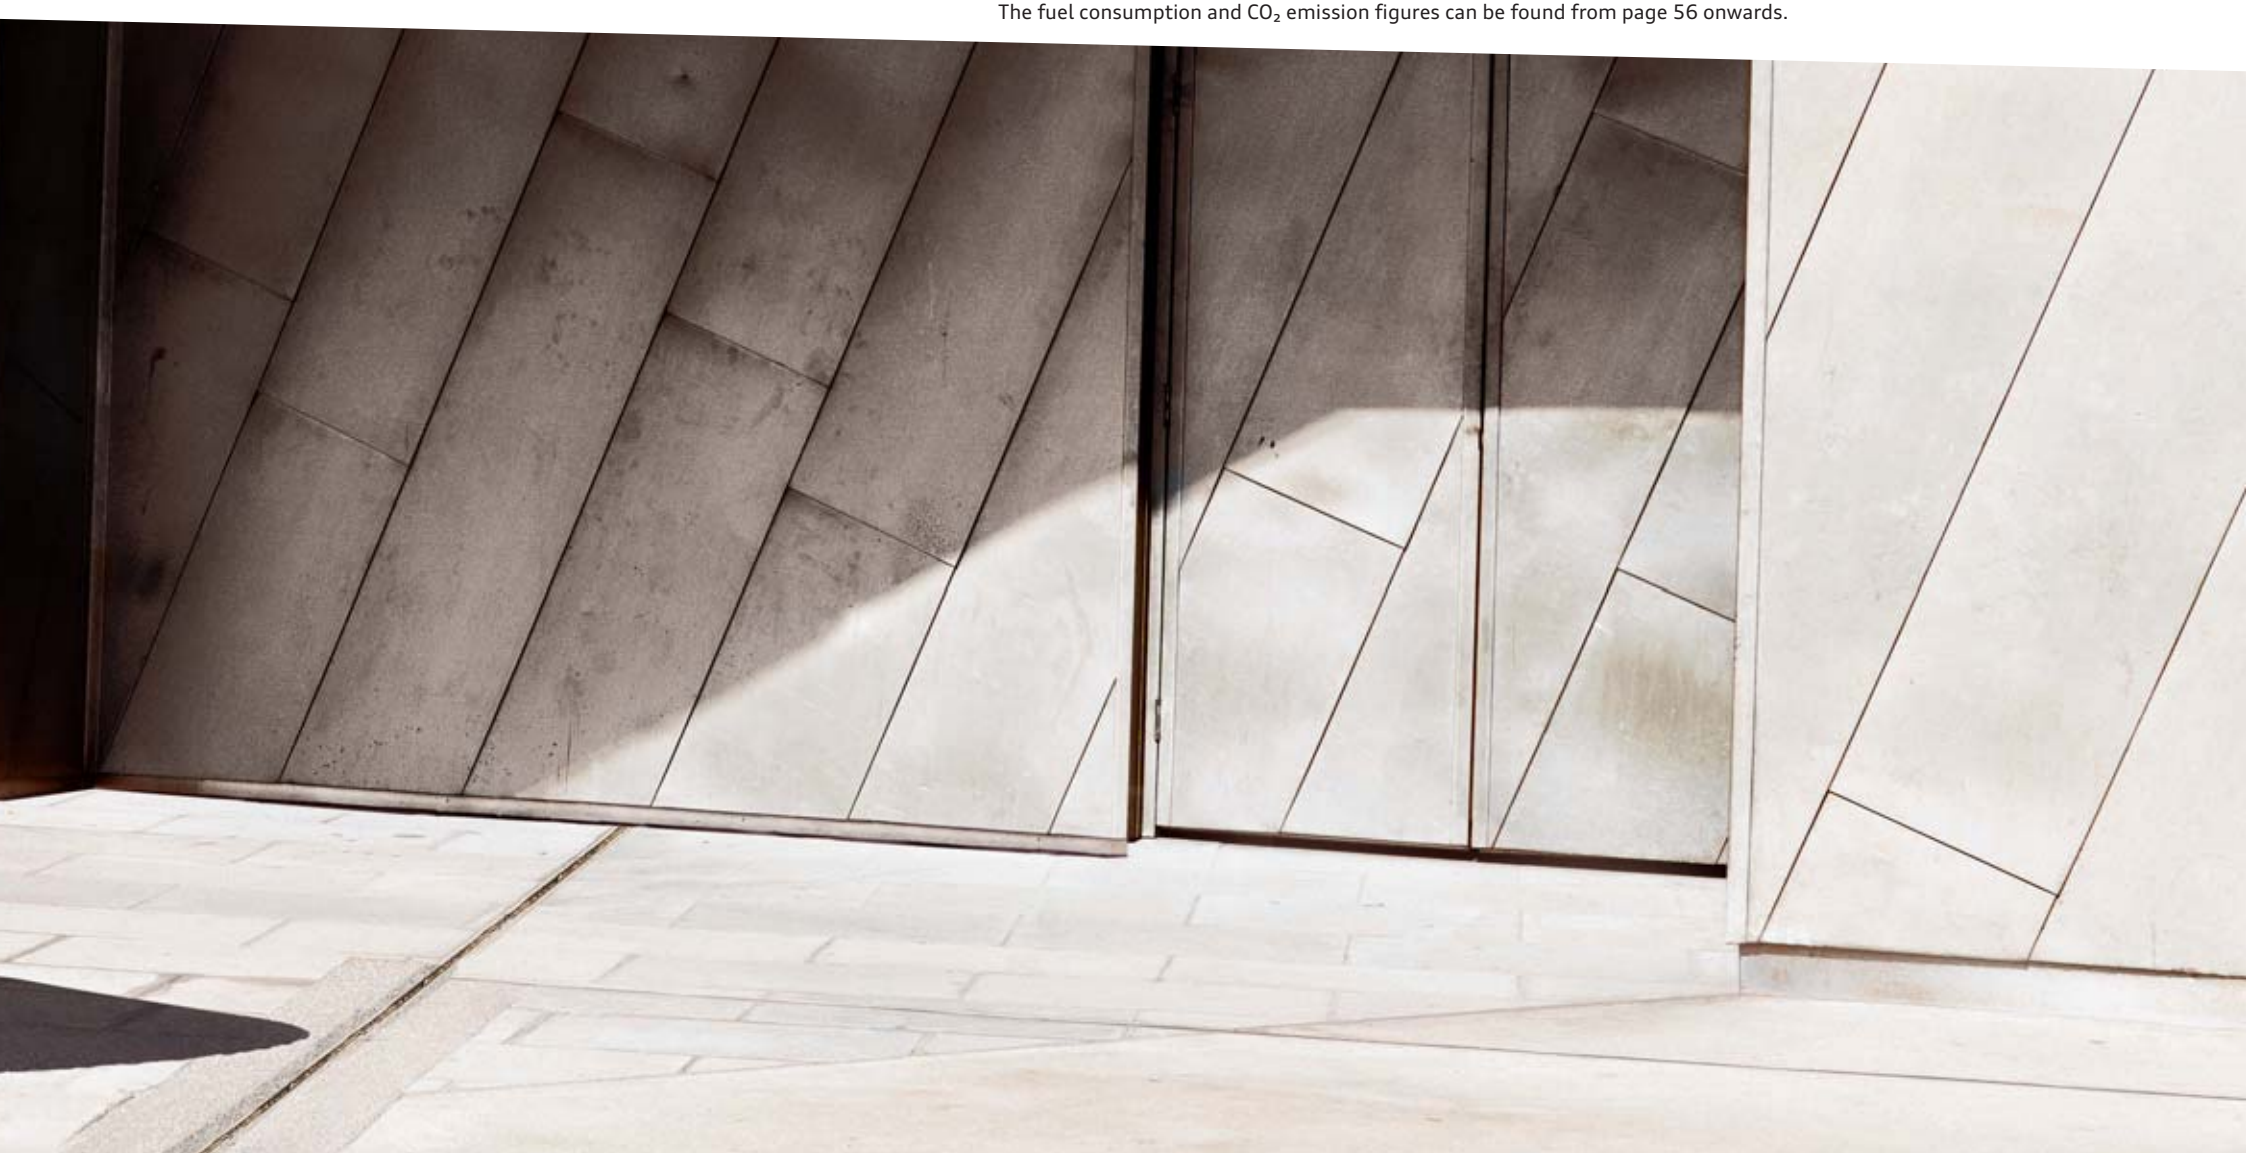
06

Design

In an instant, space becomes freedom.

Outside the proportions of a coupé, inside the feeling of space of an Avant. The Audi A5 Sportback does the seemingly impossible, combining design and a high level of functionality. A vehicle which is one of a kind.

The fuel consumption and CO_2 emission figures can be found from page 56 onwards.



A5
HH GS 656

The horizontal lines of the rear bumper accentuate the decisiveness of the design, while the diffuser insert in a contrasting colour ensures increased dynamics. Slimline headlights and large air inlets give the front of your A5 its typically impressive appearance.

The fuel consumption and CO_2 emission figures can be found from page 56 onwards.

The brake light integrated into the tailgate emphasises the aesthetic design of the vehicle. Furthermore, its LED broadband technology reacts more quickly than standard lamps, giving following road users more warning time when the car brakes.

The elegant yet powerful roofline of the Audi A5 Sportback is rounded off by its smoothly accentuated rear. Slim side windows let its appearance shine through in an even more athletic manner.

The fuel consumption and CO_2 emission figures can be found from page 56 onwards.

HH GS 656

What kind of vehicle is this Audi A5 Sportback? A coupé? An Avant? This vehicle does not fit into familiar categories. It defines a class of its own – a five-door coupé. From the elongated bonnet to the rear, the design echoes the classic form of a two-door. The flat roof is stretched elegantly over the frameless doors and a sporty shoulder line accentuates the large wheels. Short overhangs and a longer wheelbase create additional dynamics.

The four doors also hint at the high level of functionality which awaits you inside the Audi A5 Sportback. The generous amount of space offers great comfort for four people, even on long journeys.

In all respects a vehicle which offers new perspectives. Whichever way you look at it.

The fuel consumption and CO_2 emission figures can be found from page 56 onwards.

H GS 656

HH GS 656

In an instant, driving becomes feeling.

quattro® with sports differential: The A5 Sportback steers even more directly and precisely into corners.

The Audi A5 Sportback does not just inspire feelings, it adapts itself to them as well. You can choose the driving characteristics yourself at any time with the optional Audi drive select and its three modes, auto, comfort and dynamic. The suspension, the optimised axle load distribution and the extremely precise steering give you rapid, clear feedback from the road at all times. The wide track and long wheelbase also ensure superb grip and impart an excellent driving sensation.

The quattro® permanent all-wheel drive, available in conjunction with various engine models, sets standards in agility. The system transfers the driving force dynamically and asymmetrically to all four wheels in accordance with the situation. If even more agility is required, there is quattro® with sports differential. The electronically controlled differential enables the wheels of the rear axle to be accelerated individually. For excitingly precise cornering and outstanding traction.

The fuel consumption and CO_2 emission figures can be found from page 56 onwards.

In an instant, power becomes passion.

The start-stop system contributes to the minimisation of fuel consumption. If, for example, you change to neutral when waiting at a red light, the engine switches off, and back on again when you press the clutch.

Each new kilometre proves the performance of the Audi A5 Sportback and makes each drive an exciting experience. The broad range of engines is powerful, torquey and efficient.

All the petrol engines use the FSI® technology which has seen several victories at Le Mans. One example is the 2.0 TFSI quattro with an output of 155 kW and additional turbocharging for even more agility. The four cylinders of the A5 Sportback accelerate it to 100 km/h in 6.6 seconds with an impressive 350 Nm of torque. The fuel quantity, injection pressure and timing are perfectly coordinated to ensure that every drop of petrol is used efficiently.

The diesel engines also combine sportiness and efficiency. Thanks to TDI technology, they unite high torque and low fuel consumption. To do this, they work with the latest generation of the common rail system for impressive engine power even at low speeds.

This power is made perceptible by various transmission variants. The continuously variable multitronic always uses the optimum speed range. The six-speed manual transmission provides short shift travel for real driving pleasure. And the optional S tronic dual-clutch transmission permits fast gear changing with almost no perceptible pause. In either case, they are efficient to drive: the start-stop function of the 2.0 TDI and 2.0 TFSI with manual transmission, and the efficiency program of its trip computer ensure excellent use of fuel.

The fuel consumption and CO_2 emission figures can be found from page 56 onwards.

HH GS 656

In an instant, safety becomes trust.

The specially designed large brake discs counteract any deterioration in braking effect during heavy use.

It only takes a millisecond for a normal driving situation to become a challenge. The best option is to recognise dangerous situations early and therefore avoid them as far as possible. To this end, the Audi A5 Sportback has extensive assistance systems. For example, ESP: targeted braking ensures greater stability while driving. An additional front axle differential lock is at work in front-wheel drive vehicles. It distributes the drive torques electronically depending on the driving situation and thus actively intervenes before understeering even occurs. This means more agility and precision when cornering as well as smoother driving behaviour. The optional Audi lane assist also offers active support by warning the driver if the vehicle is inadvertently leaving the traffic lane, while the optional Audi side assist monitors the area at the side behind the vehicle with radar sensors.

But the A5 Sportback is also prepared for all eventualities. You and your passengers are protected by a comprehensive system that includes adaptive full-size airbags for driver and front passenger with seat position recognition and a head airbag system. Thorax/pelvis airbags and three-point inertia reel seat belts on all four seats provide additional safety (with belt tensioners and belt force limiters at front).

The fuel consumption and CO_2 emission figures can be found from page 56 onwards.

In an instant, propulsion becomes excitement.

The Audi A5 Sportback reveals a new driving dimension. With its powerful design, which fulfils its sporty promise on every journey. Dynamic on the straight, precise on corners. Developed with a clear aim: to allow you to experience each route anew.

The fuel consumption and CO_2 emission figures can be found from page 56 onwards.

HH GS 656

In an instant, attention to detail becomes passion for detail.

The cockpit has an extrovert, sporty design. The 3-spoke leather-covered sports steering wheel is light and secure in your hand. The well thought-out details are convincing: cockpit and dashboard are single or two-colour according to the interior colour selected, the visual toning down of the passenger side bringing out the driver's area more strongly.

For the interior design, you have a choice from sophisticated leather and high-quality cloths in different colour variants and an exclusive quality of finish.

There is an exceptional amount of space in the back, too, which welcomes the rear passengers with two full-size seats. For relaxed travelling, even on long journeys.

You get into a coupé – and are amazed by the generous amount of space in the Audi A5 Sportback. Experience the dimensions and superb details of the interior, with its well thought-out design. Four full-size seats offer comfort and strong lateral support. Complex lines and clearly-structured surfaces blend harmoniously into a sporty architecture and lend the interior its exclusive expression. The cockpit is designed with the driver in mind; the controls are ergonomically arranged. The optional MMI® navigation plus has been enhanced. Its operation, via the new MMI® button with integrated joystick, is completely intuitive. The MMI navigation plus has 3D map representation and the jukebox – a hard drive for organising your personal music files. Also available is the MMI® navigation system with navigation DVD.

The generous luggage compartment with 1,000 mm width is as flexible as your leisure time plans. The asymmetrical rear seat can be split and folded down to allow the loading volume to be extended quickly from 480 to 980 litres. The through-load facility therefore facilitates the stowing of longer objects, so that you can look forward to your next excursion in a relaxed manner.

The fuel consumption and CO_2 emission figures can be found from page 56 onwards.

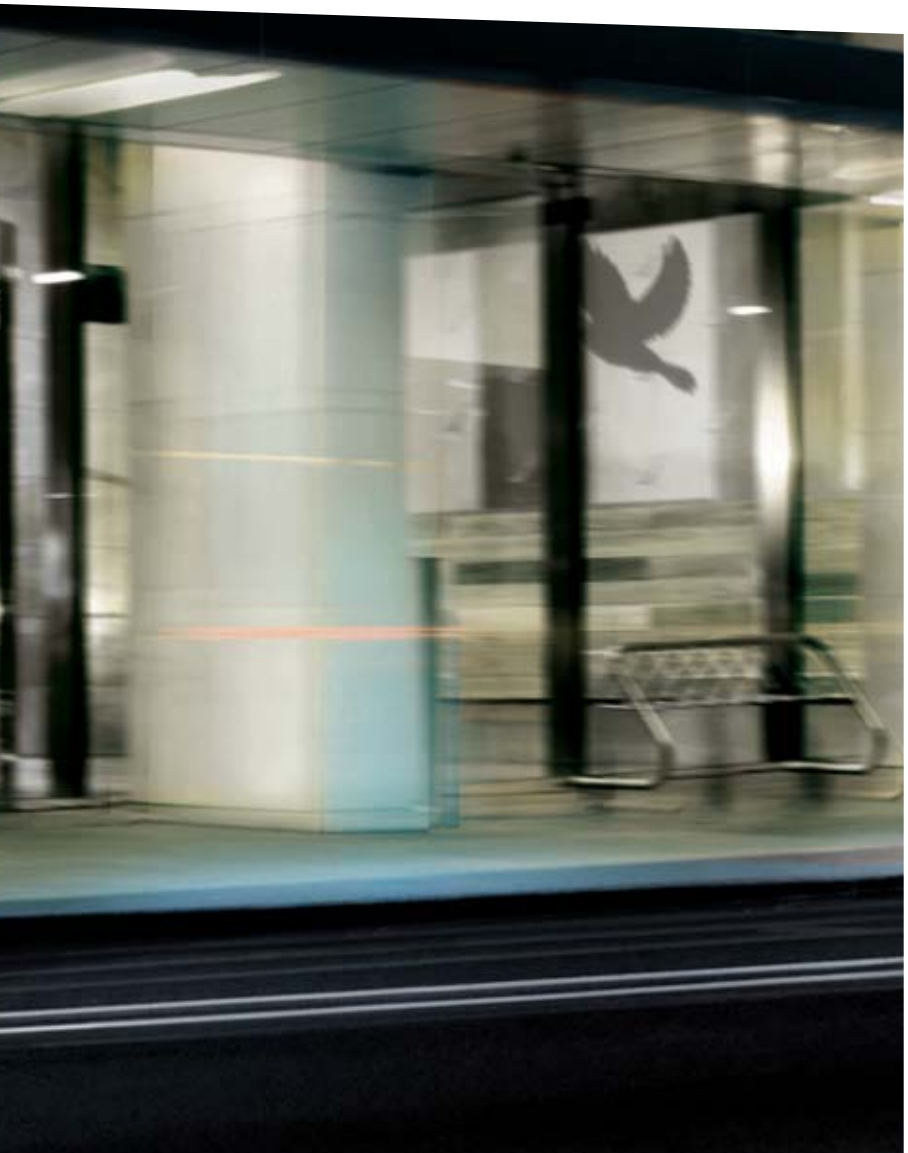
In an instant, looking becomes longing.



Increased dynamics. Enhanced efficiency.

Sportier than ever. With the Audi S models, you experience power on a whole new level. Power delivery and acceleration are tradition in the breathtaking Audi sports cars. Technical highlights, such as the specially adjusted S sports suspension, high-performance brakes, ESP or the quattro® permanent all-wheel drive, allow you to really experience this force. But an Audi bearing the S emblem incorporates so much more. Maximum agility connected to efficiency and functionality. See for yourself – drive the Audi S5 Sportback.

The equipment and fuel consumption and CO_2 emission figures can be found in the S5 Sportback catalogue.

Efficiency: standard in every Audi.

The direct route to enhanced efficiency is via innovation. For decades, Audi has been continuously providing decisive impetus for the entire automobile industry, thereby proving that effective efficiency is the result of a sustainable strategy. That's why fuel consumption and emissions-reducing measures are fitted as standard to all Audi models. The extensive technologies are combined in a model-specific manner and are implemented consistently throughout the entire vehicle fleet.

The Audi Space Frame (ASF) is a milestone in Audi's extensive experience in lightweight construction. With this revolutionary construction method, the weight of the body shell is reduced by about a third in comparison with conventional steel construction. The latest innovation in lightweight construction: the weight-reducing aluminium hybrid construction used in the new Audi A6.

Furthermore, with the TDI, Audi has developed one of the world's most successful diesel technologies. The combination of direct diesel injection and turbocharging provides high efficiency and superior engine power. Current highlight: the 3.0 TDI clean diesel in the Audi A4 Saloon[1]. It already fulfils the EU6 emissions standard that does not come into force in Europe until 2014.

Also noteworthy: the downsizing technology of the TFSI® petrol engines. Five times in succession, the 2.0-litre TFSI engine has been voted "Engine of the Year"[2]. A new evolutionary stage in efficiency is set by Audi with the Q5 hybrid quattro: as a pioneer of electrical mobility, it marks the entry into a future that in the long term will be emissions-free.

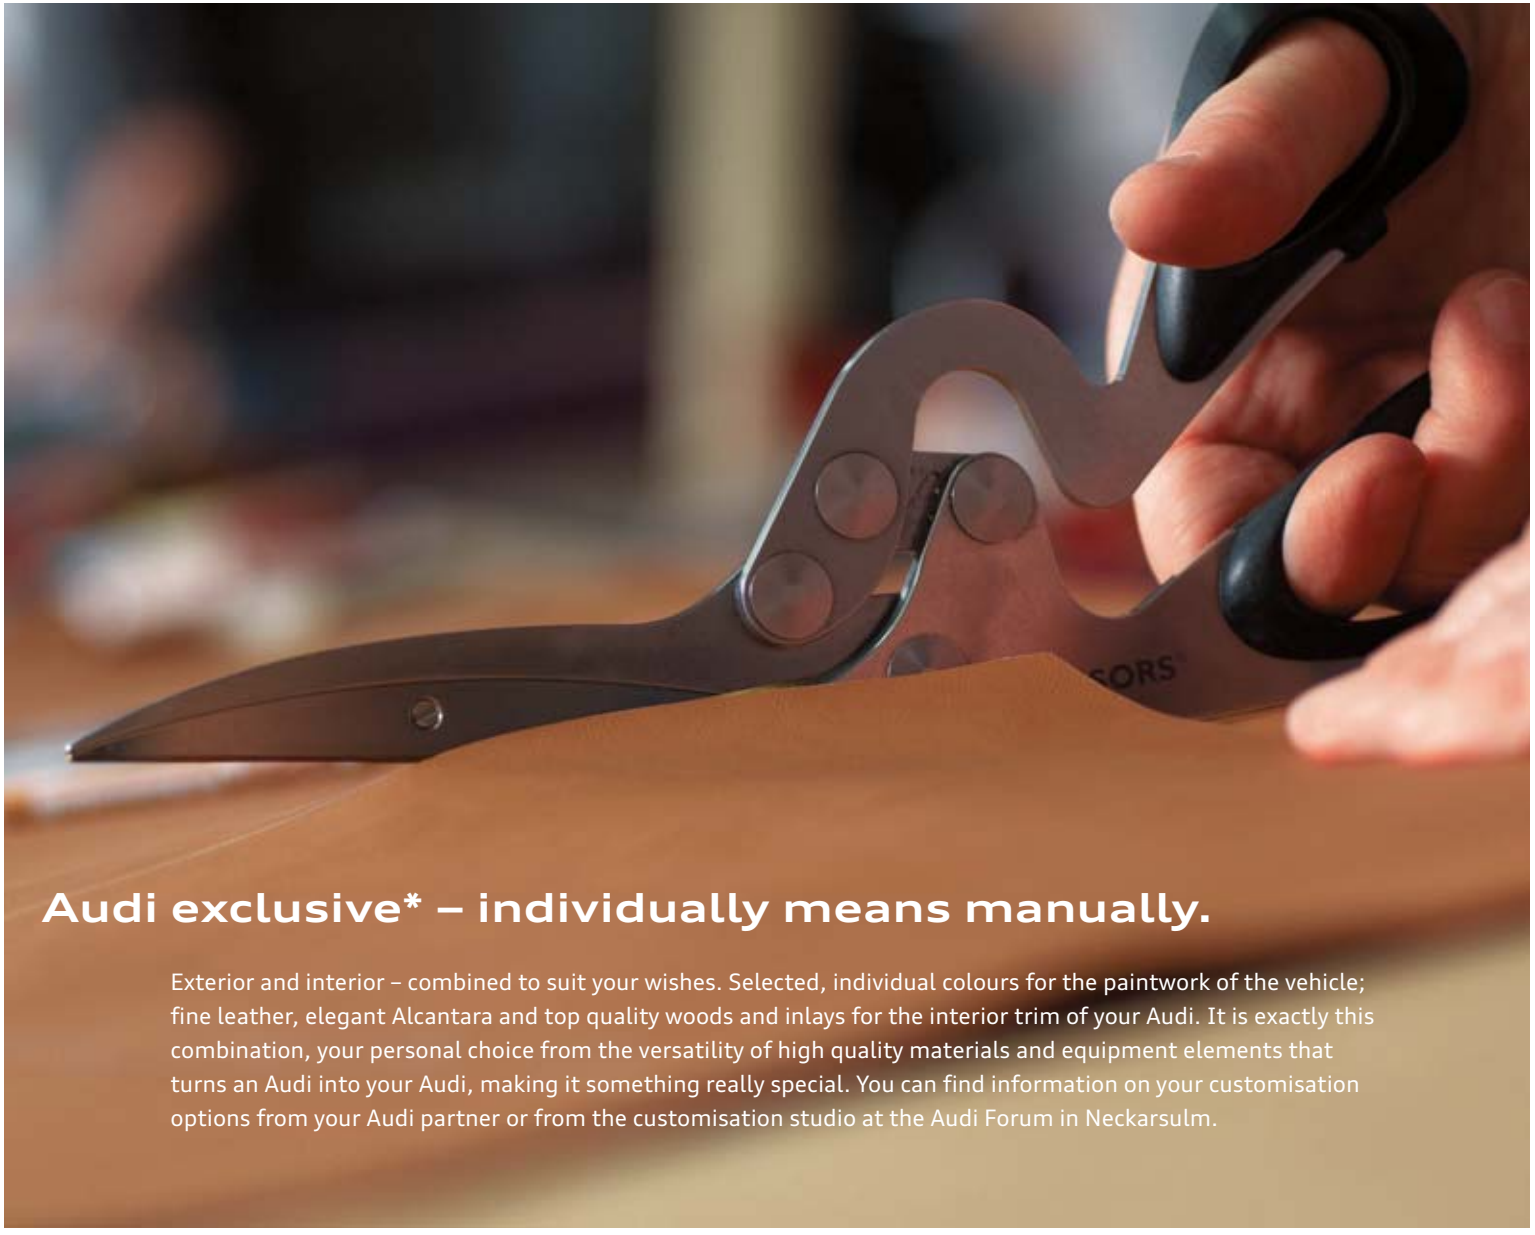
The potential of the frugal TDI and TFSI engines is brought particularly efficiently onto the road with the S tronic dual-clutch transmission with low engine speeds and shorter gearshifting times. And the aerodynamic design of the Audi

bodies provides additional savings in fuel by combining low air resistance with low levels of lift.

All measures contribute towards a perfect combination of efficiency and sportiness in every Audi. Today – and also in the future. So that you can at all times feel the demands that we have always placed on ourselves: Vorsprung durch Technik.

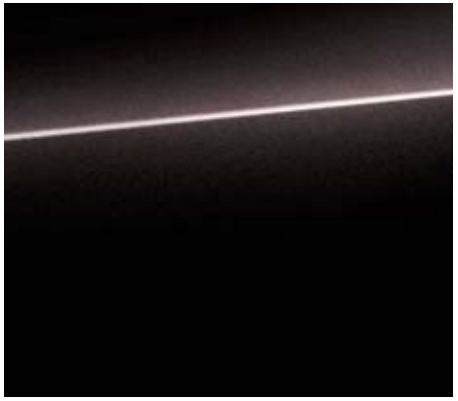
[1] Fuel consumption in l/100 km: urban 8.7; extra-urban 5.5; combined 6.7; CO_2 emissions in g/km: combined 175.

[2] The renowned “International Engine of the Year Awards” are awarded by Great Britain’s car magazines: www.ukipme.com/engineoftheyear



Audi exclusive* – individually means manually.

Exterior and interior – combined to suit your wishes. Selected, individual colours for the paintwork of the vehicle; fine leather, elegant Alcantara and top quality woods and inlays for the interior trim of your Audi. It is exactly this combination, your personal choice from the versatility of high quality materials and equipment elements that turns an Audi into your Audi, making it something really special. You can find information on your customisation options from your Audi partner or from the customisation studio at the Audi Forum in Neckarsulm.



Audi exclusive Valcona leather upholstery and trim in cocos with contrasting seams in magnolia white and Audi exclusive inlays in Fine grain ash nougat
* From quattro GmbH.

Sports seats with 2-colour seat covers in magnolia white/black and piping in Valcona leather

2-colour seat covers

Valcona leather, cognac/black

Valcona leather, magnolia white/black

Valcona leather, alabaster white/black

Inlays

Matt brushed aluminium

S line – redefining sportiness.

When you drive an Audi A5 Sportback you are making a clear declaration of your belief in sporty motoring. The S line packages give you the opportunity to lend further emphasis to the athletic presence of your Audi A5 Sportback, with a range of equipment that accentuates its dynamic lines, gives its interior a perceptibly sporty identity and further optimises its driving behaviour. Decide on a plus in sportiness.

Front bumper and side radiator grilles in a distinctive sporty design

Diffuser insert in a distinctive sporty design

S line exterior package

Front and rear bumpers, side grilles and diffuser insert in a striking, sporty design

Side sill strips, body-coloured

Middle front spoiler edge and diffuser insert painted Platinum Grey

Door sill trims with S line logo

S line logos on the front wings

Chrome-plated exhaust tailpipe surrounds (four-cylinder models)

The fuel consumption and CO_2 emission figures can be found from page 56 onwards.

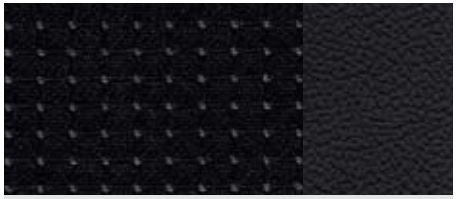
Sports seats in perforated Alcantara/Leather with silver seams

S line multifunction leather-covered sports steering wheel, 3-spoke design

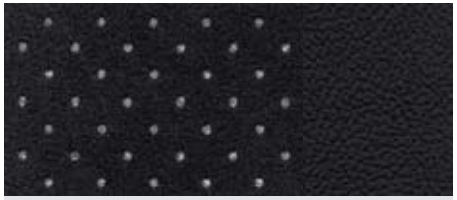
Gear lever knob in perforated leather

Cast aluminium wheels, 5-spoke design

Seat covers



Sprint cloth/leather, black



Alcantara perforated/leather, black

Milano leather, black

Valcona leather, black

Inlays

Matt brushed aluminium

Piano finish black

Fine grain birch wood grey

S line sports package

Cast aluminium wheels in 5-spoke design, also optionally available in 10-spoke design, size 8.5 J x 18 with 245/40 R 18 tyres; also optional: cast aluminium wheels, 20-spoke design, 2-piece design, 5-segment spoke design or 5-arm rotor design with titanium trim with high-gloss turned finish, size 9 J x 19 with 255/35 R 19 tyres; or: cast aluminium wheels, 7-double spoke design, size 9 J x 20 with 265/30 R 20 tyres

S line sports suspension, featuring more dynamic suspension tuning and vehicle lowered by 10 mm

S line logos on the front wings

Door sill trims with S line logo

Interior, dashboard and headlining in black, with a choice of silver or black seams on cloth/leather or perforated Alcantara/Leather seat covers, leather-covered sports steering wheel, gear lever gaiter and floor mats

S line inlays in matt brushed aluminium; optional: in Piano finish black or Fine grain birch wood grey

Sports seats including electric lumbar support

The following options are available for seat covers, steering wheels and paint finishes:

Seat covers in Sprint cloth/leather or perforated Alcantara/leather or Milano leather or Valcona leather, in each case in black and with S line embossed logo on the front-seat backrests

S line leather-covered sports steering wheel, 3-spoke design or S line multifunction leather-covered sports steering wheel, 3-spoke design with or without gearshift function, in each case in black leather with S line emblem.
Note: if ordering Audi lane assist, this can only be combined with the respective 4-spoke design leather-covered steering wheel without S line emblem

Paint finishes in all standard colours, additional colour options in the special colours Misano Red, pearl effect and Monza Silver, metallic

Additional exterior colour options

Misano Red, pearl effect

Monza Silver, metallic

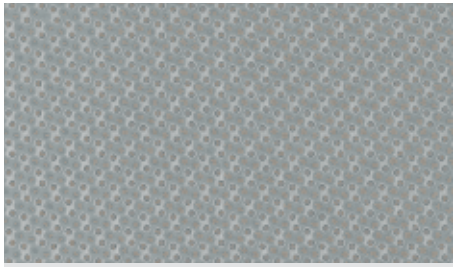
Standard seats, front, with manual seat height, fore/aft position, head restraint and backrest angle adjustment
Sports seats, front, with shaped side bolsters for improved lateral support when cornering, and with electric 4-way lumbar support, manual seat cushion angle adjustment, with extendable thigh support
Climate-controlled comfort seats, front, exclusive seat option with shaped side bolsters and soft-feel design for luxurious comfort; actively ventilated and heated, automatic heating to prevent cold seats. Perforated leather on the ventilated seat areas of the front seats and on the non-ventilated seat areas of the 2 rear seats. (Can only be ordered in conjunction with Milano leather perforated upholstery, seat heaters, front centre armrest, 3-zone deluxe automatic air conditioner and electrically-adjustable front seats)
Arcade cloth upholstery and trim, seat centre sections in Arcade cloth, seat side bolsters, head restraints and door trim inserts in plain coloured cloth. (Can only be ordered in conjunction with front standard seats)
Atrium cloth upholstery and trim, seat centre sections in Atrium cloth, seat side bolsters, head restraints and door trim inserts in single-colour cloth. (Can only be ordered in conjunction with front sports seats)
Alcantara/Leather combination, seat centre sections in Alcantara, seat side bolsters and head restraint centres in leather, door trim inserts in Alcantara. (Can only be ordered in conjunction with front sports seats)
Milano leather upholstery and trim, seat/side bolsters surface and head restraint centre section in Milano leather
Perforated Milano leather upholstery and trim, seat/side bolsters covers and head restraint centre sections in Milano leather, perforated Milano leather on the ventilated seat areas of the front seats and on the non-ventilated seat areas of the 2 rear seats. (Can only be ordered in conjunction with climate-controlled front comfort seats)
Valcona leather upholstery and trim, seat covers, head restraints and door trim inserts, front and rear, in Valcona leather
Audi exclusive leather upholstery and trim in Valcona leather (package 1), seat covers, head restraints, door trim inserts and front centre armrest (if included in order) in Valcona leather. Optional: coloured seams on side bolsters and head restraints. From quattro GmbH
Audi exclusive leather upholstery and trim in Alcantara/Valcona leather (package 1), seat side bolsters, head restraints and centre armrest (if included in order) in Valcona leather, seat centre sections and door trim inserts in Alcantara. Optional: coloured seams on side bolsters and head restraints. (Can only be ordered in conjunction with sports seats.) From quattro GmbH
Audi exclusive Valcona leather upholstery and trim (package 2), as package 1 plus the following: seat backrest covers and door armrests in leather. Optional: coloured seams on seat side bolsters, head restraints and armrests. Attachments are matched to the colour of the leather. (Can only be ordered in conjunction with electrically adjustable front seats). From quattro GmbH
Cloth headlining, in star silver, black or linen beige, depending on colour selected for interior trim
Headlining in black cloth

Please find out from your local Audi partner which equipment is standard and what optional equipment is available in your country.

Inlays

Micrometallic platinum

Laurel nutmeg



Aluminium hologram

Fine grain ash almond beige

Walnut brown

Audi exclusive inlays
From quattro GmbH

Inlays, for door trims front and rear, and in the centre console, if the centre armrest has also been ordered

Wheels/tyres

Lightweight forged aluminium wheels, 6-arm design,
size 7.5 J x 17 with 225/50 R 17 tyres

Cast aluminium wheels, 10-spoke V design,
size 8.5 J x 18 with 245/40 R 18 tyres

Cast aluminium wheels, 5-arm Y design,
size 8.5 J x 19 with 255/35 R 19 tyres

Cast aluminium wheels, 7-arm design,
size 7.5 J x 17 with 225/50 R 17 tyres

Cast aluminium wheels, 15-spoke star design,
size 8.5 J x 18 with 245/40 R 18 tyres

Cast aluminium wheels, 6-spoke parabola design*,
size 8 J x 17 with 245/45 R 17 tyres

Cast aluminium wheels, 5-arm dynamic design,
size 8.5 J x 18 with 245/40 R 18 tyres

Winter wheels

Lightweight forged aluminium winter wheels, 6-arm design*, size 7.5 J x 17 with 225/50 R 17 tyres, permissible top speed 210 km/h, can be fitted with snow chains

Cast aluminium winter wheels, 10-spoke V design, size 8.5 J x 18 with 245/40 R 18 tyres, permissible top speed 240 km/h, cannot be fitted with snow chains

Please find out from your local Audi partner which equipment is standard and what optional equipment is available in your country.

Audi exclusive wheels/tyres

Audi exclusive cast aluminium wheels, 5-spoke design,
size 8.5 J x 18 with 245/40 R 18 tyres.
From quattro GmbH

Audi exclusive cast aluminium wheels, 20-spoke design,
2-piece, size 9 J x 19 with 255/35 R 19 tyres.
From quattro GmbH

Audi exclusive cast aluminium wheels, 10-spoke design,
size 8.5 J x 18 with 245/40 R 18 tyres.
From quattro GmbH

Audi exclusive cast aluminium wheels, 5-arm rotor design, titanium look, high-gloss turned finish,
size 9 J x 19 with 255/35 R 19 tyres.
From quattro GmbH

Audi exclusive cast aluminium wheels, 5-segment spoke design,
size 9 J x 19 with 255/35 R 19 tyres.
From quattro GmbH

Audi exclusive cast aluminium wheels, 7-double-spoke design,
size 9 J x 20 with 265/30 R 20 tyres.
From quattro GmbH

Run-flat tyres, enabling the journey to be continued safely even when a tyre is flat. Maximum speed 80 km/h, maximum run-flat distance 30 km
Wheel bolts, anti-theft, can only be loosened using adapter provided
Tyre repair kit, with 12 V compressor and tyre sealant; permissible top speed 80 km/h
Spare wheel, space-saving, can only be ordered with the jack
Tyre pressure monitoring system, provides a visual and acoustic warning of any loss in pressure in one or more tyres; display in the driver information system
Vehicle tool kit in the luggage compartment
Jack in the luggage compartment

* Optionally available with run-flat tyres.

Lights

xenon plus including headlight cleaning system, the headlights with durable gas discharge technology for dipped and main beam enable an intensive illumination of the road with evenness and range, in a colour resembling daylight both close-up and in the distance. The automatic-dynamic beam angle control prevents oncoming traffic from being dazzled; daytime running lights and rear lights in LED technology with low power consumption

Daytime running lights with separate reflectors, with xenon plus LED daytime running lights with low power consumption integrated into the headlights

Headlights, halogen headlights utilising ellipsoid technology with clear glass covers, electric headlight range control and parking light function, daytime running lights with separate reflectors

adaptive light, the dynamic cornering light identifies the course of the road from the movement of the steering wheel. The headlights swivel – depending on the steering angle – towards the curve and in this way illuminate the variable course of the curve. The adaptive light is operational between speeds of approx. 10 km/h and 110 km/h. (Can only be ordered in conjunction with xenon plus)

Main beam assist, working within system limits, automatically detects the headlights of oncoming traffic, the rear lights of other road users and built-up areas. Depending on the traffic situation, the main beam is automatically switched on or off. The system thereby improves the driver's visibility and ensures a more relaxed drive thanks to the extra comfort and convenience. (Can only be ordered in conjunction with automatically dimming interior mirror)

Interior lighting with delayed switch-off and contact switches on all doors; lights for luggage compartment, driver, front-passenger and rear compartment, 2 reading lights at front, interior light at rear, illuminated make-up mirrors, ambient lighting

Lighting package includes rear reading lights, illuminated vent controls and inside door handles, active door reflectors, entrance lighting, footwell lights front and rear, illuminated glove compartment

Rear lights in red, reversing lights in white, integral rear fog lights

LED rear lights, LED brake and rear tail lights; reversing lights, rear fog lights and indicators have light bulbs. (Can only be ordered in conjunction with xenon plus)

Front fog lights, integrated in the bumper, with ring trim in aluminium look

Headlight cleaning system uses water and high pressure, for improved illumination and good visibility (Standard in conjunction with xenon plus)

Light/rain sensor to control the automatic headlights, the coming home/leaving home function and the automatic windscreen wiper function; includes windscreen with grey-coloured strip along the top edge

Mirrors

Exterior mirrors with integral LED indicator; electrically adjustable; body-coloured housings; convex, flat or aspherical mirror glass

also optionally:

heated, both exterior mirrors and windscreen washer jets heated

heated and electrically folding

heated, electrically folding and automatically dimming (can only be ordered in conjunction with automatically dimming interior mirror)

heated, electrically folding, automatically dimming, with memory function (can only be ordered in conjunction with automatically dimming interior mirror and driver's seat with memory function)

Interior mirror, can be dimmed

also optionally:

automatically dimming, includes windscreen with acoustic glazing, as a result improved insulating value of the windscreen and reduced noise level from the outside. (Can only be ordered in conjunction with light/rain sensor)

Roof systems

Glass tilt/slide sunroof, electric, tinted single-glazed safety glass, with continuously adjustable sliding sunroof position; integrated wind deflector, automatic pre-selection for required sunroof position; convenience closing from outside via the central locking and the radio-operated remote control

Closing systems

Central locking, with autolock function and radio-operated remote control integrated into the vehicle key

Radio-operated remote control for the central locking with interior switch incorporated into the vehicle key; with one touch of the button the system opens and locks doors, windows, tailgate and fuel filler cap – with variable code

Comfort key, access and drive authorisation system; the key only needs to be carried with you; the engine is started and switched off via the engine start/stop button on the centre console, the vehicle is locked from outside via buttons on both door handles; the vehicle can also be opened from the tailgate

Immobiliser, electronic, incorporated in engine control unit, automatically activated by the vehicle key

Garage door opener (HomeLink), programmable radio-operated remote control, operating buttons incorporated in the interior lighting module; can be used to open many garage doors and exterior gates; allows control of security and lighting systems; please contact your Audi partner for further information

Anti-theft alarm including interior monitoring and tow-away protection via angle of inclination sensor; can be deactivated; signal horn for monitoring the doors, bonnet and tailgate independent of vehicle electrical system

Fitting for Tracking Assistant, fitting for connecting a Tracking Assistant (available from Audi Genuine Accessories) that enables a stolen vehicle to be located

Ignition lock electronic, ignition key features integral chip, automatically stores relevant vehicle service data (mileage, chassis number and much more)

Please find out from your local Audi partner which equipment is standard and what optional equipment is available in your country.

Glazing

Heat-insulating glass, green tinted, windscreen made of laminated glass

Dark-tinted windows (privacy glazing), dark-tinted rear window and rear side windows

Rear window, heated, with timer switch

Windscreen wash/wipe system, 2 speed operation, 4-speed adjustable intermittent wipe, flick-wipe function, automatic wash/wipe function

Further exterior equipment

Provision for trailer towing hitch, includes the wiring to the spare wheel well, a prepared ABS control unit and adapted engine cooling. The set of parts for retrofitting is available from Audi Genuine Accessories

Towing device, removable and lockable, sphere bar and ball head made from forged steel, the 13-pin socket can be swivelled out of sight behind the bumper skirt; when removed, the towing device can be stored in the spare wheel well; trailer stabilisation system via ESP

High-gloss package, roof frame and window capping strips in anodised aluminium

Audi exclusive black styling package, radiator grille frame in high-gloss Black; radiator grille, licence plate holder, front fog lamp surrounds and window capping trim in Matt Black. From quattro GmbH

Audi Singleframe, radiator grille in Stone Grey; high-gloss Black for the 3.0 TDI and 3.2 FSI

Exhaust tailpipes, visible, dual-branch design with 1 tailpipe each on both sides; single-branch design with 2 tailpipes on the left on the 1.8 TFSI and 2.0 TDI

Model name/logo, model name on the tailgate, quattro logo (on quattro® models) in radiator grille, on tailgate and in the dashboard on the passenger side; on request, vehicle can also be supplied without the model name on the rear

Seats/seating comfort

4-way lumbar support, electric, for driver and front-passenger seats, with horizontal and vertical adjustment

Adjustable front seats, electric adjustment for seat height, fore/aft position and seat and backrest angles, with electric 4-way lumbar support

Memory function for driver's seat, 2 different presets for the electrically adjustable driver's seat and the exterior mirrors

Rear seats, folding, can be split and folded ⅓, ⅔ or completely

Seat heaters, front, heat seat cushions and backrests; on sports seats or leather seats also heat the side bolsters; individually adjustable in 6 stages for driver and front-passenger seats

Seat heaters, front and rear features as for seat heaters at front, additionally also for rear seats. (Can only be ordered in conjunction with leather upholstery and trim or the Alcantara/Leather combination)

Centre armrest, front, adjustable lengthways; with fold-open storage compartment and two 12 V sockets in the centre console

Centre armrest, rear, folding

Leather-covered armrests in the door trims, in Fine Nappa leather, for an exclusive interior look. (Can only be ordered in conjunction with leather upholstery and trim or the Alcantara/Leather combination)

Head restraints, front and rear, height-adjustable

ISOFIX child seat mounting for the rear seats

ISOFIX child seat mounting for front-passenger seat and rear seats, with deactivation switch for the front-passenger airbag

Steering wheels/gear levers/controls

Leather-covered sports steering wheel in 3-spoke design, with full-size airbag and perforated leather, with adjustable height and reach, leather gear lever knob or selector lever knob and gaiter

Multifunction leather-covered sports steering wheel in 3-spoke design, with full-size airbag and perforated leather, with adjustable height and reach, including leather gear lever knob or selector lever knob and gaiter; for operating basic functions of the Audi navigation systems and radios, voice control system, Bluetooth interface, mobile phone fitting or car phone; models with automatic transmission feature shift paddles behind the steering wheel

Steering wheel rim customised with Audi exclusive leather, available in all Audi exclusive colours; individual choice of seams in various Audi exclusive colours. From quattro GmbH

Controls customised with Audi exclusive leather, leather-covered steering wheel rim, gear lever and gear lever gaiter; available in all Audi exclusive colours; individual choice of colour for seams in various Audi exclusive colours. From quattro GmbH

Audi exclusive gear lever knob in aluminium. From quattro GmbH

Climate control

Automatic air conditioning with sunlight-dependent control, electronically regulates the air temperature, flow rate and distribution, with ram air control and manual recirculation mode, dust and pollen filter, defroster vents for the windscreen and the side windows, key-coded settings

3-zone deluxe automatic air conditioning, with sunlight-dependent control, electronically regulates the air temperature, flow rate and distribution, separate temperature distribution for driver, front passenger and rear compartment, temperature and air distribution adjustable left and right in the front, control panel for setting the temperature in the rear compartment in the rear centre console, automatic recirculation mode by means of air quality sensor, front control panel with digital display, includes rain, light and humidity sensor, combined filter, indirect ventilation

Auxiliary heating/ventilation, the heater heats up the interior and keeps the windows free from ice, the ventilation system supplies fresh air and reduces the interior temperature; complete with timer and separate radio-operated remote control with radio feedback

Luggage securing and storage systems

Storage compartments in the front and rear door trims with storage for drinks bottles

Spectacles holder in the front interior lighting module, above the interior mirror

Storage package includes storage nets on the front seat backrests, storage compartment under the front seats (if memory function for the driver's seat is fitted, only under the front-passenger seat), drinks holder in the rear centre armrest and a locking glove compartment

Drinks holder at front in the centre console

Lashing points, 4 in the luggage compartment, for attaching luggage and other objects, attachment points for the combined net

Reversible mat for the luggage compartment, velour on one side, rubber on the other, folds out to cover the entire load area, even with the rear seats folded down, with fold-out protective cover for the loading sill and bumper

Through-load facility with removable ski/snowboard bag, secured by a strap, for practical transportation of long items, e.g. up to 4 pairs of skis up to 200 cm in length, or 2 snowboards

Luggage compartment package, consisting of a combined net in the luggage compartment, fastening hooks, luggage net on the right-hand side of the luggage compartment, strap in the left-hand trim to secure small objects; loading sill cover in high gloss polished stainless steel

Further interior equipment

Floor mats front in velour, coordinated with the carpet colour

Floor mats front and rear in velour, coordinated with the carpet colour

Audi exclusive floor mats, floor mats with leather piping, individual choice of colour for the mat and piping from a selection of Audi exclusive colours. Your Audi partner will be happy to offer you advice. From quattro GmbH

Audi exclusive carpet including floor mats, carpet including floor mats with leather piping. Any combination from a range of different Audi exclusive colours is available for the carpet, mats and piping. Your Audi partner will be happy to offer you advice. From quattro GmbH

Door sill trims with aluminium inlays on the door sills

Electric windows front and rear, with safety system to limit closing force, one-touch opening and closing function and convenience operation

Cigarette lighters and ashtrays, ashtrays in the centre console front and rear, cigarette lighter incorporated into the front ashtray

Grab handles, damped action, 4, folding, recessed into the roof, clothes hooks on the rear grab handles

12 V socket in the side trim of the luggage compartment on the right-hand side at the rear

230 V socket in the centre console in the rear, replaces the rear 12 V socket (Can only be ordered in conjunction with front centre armrest)

Aluminium look on the interior on light switches, air conditioning system, MMI rotary/push-button control, vents and around the gear and selector lever gaiter

MMI® and navigation systems

MMI® navigation with navigation data (DVD), 6.5-inch colour display with high-quality map display and numerous detailed display options, voice control (destination entry via spelling), dynamic route guidance with TMC (where available), MP3 and WMA-compatible DVD player for navigation data (DVD), can also be used for music CDs, additional arrow display in the driver information system, radio with triple turner, phase diversity, 2 SDHC memory card readers (for up to 32 GB), AUX-IN connection, 8 passive loudspeakers, total output 80 watts. (Can only be ordered in conjunction with a leather-covered multifunction steering wheel)

Navigation data (DVD), contains navigation data for the following countries (where digitised): Andorra, Austria, Belgium, Croatia, Czech Republic, Denmark, Estonia, Finland, France, Germany, Gibraltar, Greece, Hungary, Ireland, Italy, Latvia, Liechtenstein, Lithuania, Luxembourg, Monaco, the Netherlands, Norway, Poland, Portugal, San Marino, Slovakia, Slovenia, Spain (including the Canary Islands), Sweden, Switzerland, UK and the Vatican City

MMI® navigation plus with navigation data (hard drive), high-resolution 7-inch colour display with high-quality map display, voice control system (destination entry by means of whole-word input), choice of 3 alternative routes provided, map displays have topographical map colouring and show sightseeing information and 3D city models, scrolling along the route, joystick map manoeuvring function in the control button, split-screen route information (manoeuvring points, points of interest on motorways, TMC on route), detailed junction map and lane recommendations, dynamic route guidance with TMC (where available), additional arrow display in the driver information system with colour display, radio with triple tuner, phase diversity, hard drive can also by used to store music (10 GB), MP3, WMA and AAC-compatible DVD player can also be used for music and video DVDs, 2 SDHC memory card readers (for up to 32 GB), AUX-IN connection, 8 passive loudspeakers, total output 80 watts. (Can only be ordered in conjunction with a driver information system with colour display and leather-covered multifunction steering wheel)

Navigation data (hard drive) contains navigation data for countries (where digitised) named under navigation data (DVD); also for Albania, Belarus, Bosnia-Herzegovina, Bulgaria, Macedonia, Moldova, Montenegro, Romania, Russia, Serbia and Ukraine

Driver information system, a monochrome display provides you with information from the trip computer, auto check system, scope of display of the MMI system, brake wear indicator at front as well as a digital speed display; the outside temperature display shows an ice crystal at temperatures under +5°C to warn of possible black ice; furthermore, the display is used to indicate the current gear in vehicles with manual transmission. The integrated efficiency program assists you with consumption data overviews, display of additional loads and fuel-saving tips for economic driving

Driver information system with colour display, a high-resolution display provides you with information from the trip computer, auto check system, scope of display of the MMI system, brake wear indicator at front as well as a digital speed display; the outside temperature display shows an ice crystal at temperatures under +5°C to warn of possible black ice; furthermore, the display is used to indicate the current gear in vehicles with manual transmission. The integrated efficiency program assists you with consumption data overviews, display of additional loads, enlarged current gear display and fuel-saving tips for economic driving

Screen, 6.5-inch, monochrome, in the dashboard, for displaying radio, climate control and car menu functions as well as the time

Please find out from your local Audi partner which equipment is standard and what optional equipment is available in your country.

Radio and TV systems

chorus radio with CD player, dynamic station list, 30-station memory, FM (VHF) and AM (MW, LW) reception, MMI operating concept, 6.5-inch monochrome screen, speed-dependent volume control, phase diversity, 4 passive loudspeakers, total output 40 watts. Note: certain car menu settings cannot be made using the chorus radio

concert radio with CD player and SDHC memory card reader (up to 32 GB), both MP3, AAC and WMA-compatible, dynamic station list, 30-station memory, FM (VHF) and AM (MW, LW) reception, MMI operating concept, 6.5-inch TFT colour screen, TP memo function, speed-dependent volume control, phase diversity, AUX-IN connection, 8 passive loudspeakers, total output 80 watts

symphony radio with integral changer for 6 CDs and SDHC memory card reader (up to 32 GB), both MP3, AAC and WMA-compatible, dynamic station list, 30-station memory, FM (VHF) and AM (MW, LW) reception, MMI operating concept, 6.5-inch TFT colour screen, TP memo function, speed-dependent volume control, phase diversity, AUX-IN connection, 8 passive loudspeakers, total output 80 watts

Digital radio reception (DAB) (for concert and symphony radios and for navigation systems) reception of digital stations in accordance with the DAB standard in addition to analogue stations; in connection with MMI navigation or MMI navigation plus includes reception of DAB+ and DMB audio. With the DAB twin tuner (only available in conjunction with MMI navigation plus), a second DAB tuner permanently searches for alternative reception frequencies of the set radio station; at the same time the station list is updated. Please note: reception depends on local digital network availability

TV reception for MMI navigation plus, reception of analogue and digitally-broadcast (DVB-T) unencrypted television stations (MPEG-2 standard), TV picture, teletext and Electronic Programme Guide (EPG). Facility to connect 2 external AV sources via the optional adapter cable. Please note: reception depends on local analogue and digital network availability. No AV or TV output when driving (audio output available while car is being driven)

Audi sound system, 6-channel amplifier, 10 speakers including centre speaker in the dashboard and subwoofer in the spare wheel well, total output 180 watts. (Cannot be ordered in conjunction with chorus radio)

Bang & Olufsen Sound System, surround sound reproduction via 14 high-performance speakers; 1 centre speaker and 2 midrange speakers in the dashboard; 1 tweeter in each mirror quadrant; 1 woofer in each front door; 2 tweeters and 2 low/midrange units in the rear doors; 2 surround loudspeakers and 1 subwoofer in the spare wheel well, exclusive loudspeaker covers with aluminium trim, dynamic driving noise compensation, 10-channel amplifier, total output 505 watts. The reproduction of 5.1 Surround Sound is possible in conjunction with MMI navigation plus and the integrated DVD drive. (Cannot be ordered in conjunction with chorus radio)

CD-changer in the glove compartment for 6 CDs (MP3 and WMA-compatible), shock-resistant, easily accessible, no cartridge, each CD can be loaded or changed separately. Music files with digital rights management (DRM) cannot be played. (Can only be ordered in conjunction with MMI navigation or MMI navigation plus)

Audi music interface, for generation 4 and higher Apple iPods, an Apple iPhone (music functionality) as well as USB storage media and MP3 players. The Audi music interface is located in the glove compartment and operated via MMI navigation plus, MMI navigation, symphony radio, concert radio or a leather-covered multifunction steering wheel. Note: can only be used in conjunction with a special adapter cable (Audi Genuine Accessories). Please contact your Audi partner for information on other compatible MP3 players. (In conjunction with the Audi music interface, the AUX-IN connection is omitted)

Adapter cable set for Audi music interface, consisting of 2 connection cables for the connection of iPod/iPhone or data carrier/media player with USB connection (Type A); further adapter cables available from Audi Genuine Accessories

Telephone and communication

Bluetooth interface, Bluetooth-compatible mobile telephones can be connected to the vehicle via the interface. Hands-free calls are possible in the vehicle via the microphone. (Cannot be ordered in conjunction with chorus radio)

Mobile phone fitting (Bluetooth) comprises a hands-free facility and voice control for telephone functions as well as a fitting for optional mobile-specific charger; operation via MMI navigation plus, MMI navigation, concert radio, symphony radio, the leather-covered multifunction steering wheel or, where present, via the voice control system; please contact your Audi partner for adapters and information about which mobile phones are compatible. (Can only be ordered in conjunction with a leather-covered multifunction steering wheel and a navigation system or with a concert or symphony radio)

Mobile phone fittings (Bluetooth) in the front centre armrest, equipment as for mobile phone fitting (Bluetooth), fitting for optional mobile-specific charger in the centre armrest at the front. (Can only be ordered in conjunction with a leather-covered multifunction steering wheel and a navigation system or with a concert or symphony radio)

Bluetooth car phone, your Bluetooth-capable mobile phone can be conveniently connected to the GSM module inside the vehicle (provided that your mobile has SIM Access Profile), additional SIM card reader located in the surround of the MMI navigation/MMI navigation plus. Transfer of phone book entries to the vehicle and management of call lists; simple operation using MMI navigation/MMI navigation plus, leather-covered multifunction steering wheel or voice control system. (Can only be ordered in conjunction with MMI navigation or MMI navigation plus)

Bluetooth car phone with wireless handset, in addition to the Bluetooth car phone it also includes a handset with colour display and integrated SIM card reader, for discreet phone calls; easy to compose text messages thanks to automatic word recognition. Handset accommodated in the front centre armrest. (Can only be ordered in conjunction with front centre armrest)

Assistance systems

adaptive cruise control, automatic speed and distance regulation; working within system limits, it assists with detecting and maintaining the distance from the vehicle in front by braking and accelerating. (Cannot be ordered in conjunction with chorus radio)

Audi side assist, lane changing assistant, working within system limits at speeds of 30 km/h and above, the system uses radar technology to monitor the area on the left, right and behind the moving vehicle and informs or warms the driver by means of an LED display in the exterior mirror if the Audi side assist has detected another vehicle assessed as critical for lane-changing. (Cannot be ordered in conjunction with chorus radio)

Audi lane assist, lane compliance assistant, working within system limits, the system creates a virtual driving lane using a front camera and steering angle sensor. If there is a risk of the vehicle leaving the lane without activated indicators, the driver is warned by the vibrating of the steering wheel; including windscreen with acoustic glazing. (Omission of the grey coloured strip in the windscreen, can only be ordered in conjunction with the light/rain sensor and leather-covered multifunction steering wheel, cannot be ordered together with chorus radio)

Hold assist (not for models with start-stop system) holds the vehicle stationary for unlimited periods after stopping, including on uphill and downhill gradients. The system is activated by push-button and allows the driver to drive away smoothly without having to manually operate the handbrake

Parking system, rear, makes reverse parking easier by indicating acoustically how far away the vehicle is from a detected object; measurement is by ultrasonic sensors concealed in the bumper

Parking system plus, acoustic and visual parking aid for front and rear, with display in MMI screen

Parking system plus with reversing camera, acoustic and visual parking aid for front and rear, image of area behind the vehicle shown on the MMI display, with 2 dynamic display modes for the calculated direction of travel, depending on the steering angle; includes help lines and guidelines; reversing camera concealed in the tailgate handle strip. (Can only be ordered in conjunction with a navigation system)

Cruise control system – at speeds of 30 km/h and above, the system keeps the set speed constant, provided that engine power and engine braking effect permit it; also features active braking intervention, e.g. when driving downhill; operated via separate steering wheel control stalk; set speed displayed in the driver information system

Suspension/brakes

Audi drive select, vehicle settings can be changed by selecting 1 of 3 modes (comfort, auto and dynamic), or an additional individual mode can be set up using MMI navigation system. (Can only be ordered with dynamic steering and/or suspension with damper regulation and/or quattro® with sports differential)

Dynamic steering – when cornering, changing lanes or parking, this system improves comfort and handling by dynamically regulating steering according to the driving situation. In addition to adaptation of the steering effort (as with servotronic), the steering angle is also adapted (steering ratio). The system is also supported further by vehicle stabilisation through ESP. (Can only be ordered in conjunction with Audi drive select)

Suspension with damper regulation, electronically controlled adaptation to different driving situations; dynamic or comfort-oriented characteristic of the damper coordination can be adapted over Audi drive select. (Can only be ordered in conjunction with Audi drive select)

Dynamic suspension providing outstanding handling and exceptional levels of driving comfort with five-link lightweight front axle with virtual steering axis, tubular anti-roll bar; trapezoidal-link rear axle with independent wheel suspension; twin-tube gas-filled shock absorbers and coil springs, auxiliary rebound springs, flexibly mounted subframe at rear, at front rigidly bolted to vehicle body

Sports suspension with stiffer spring and damper tuning for more direct contact with the road and sporty handling; includes suspension brace

S line sports suspension with more dynamic suspension tuning; lowers vehicle by a further 10 mm compared with sports suspension.

Braking system, dual-circuit, diagonally-split braking system, anti-lock system (ABS) with electronic brake force distribution (EBD), Electronic Stabilization Programme (ESP) with brake assist, tandem brake booster, disc brakes front/rear, ventilated at front

Electromechanical parking brake, includes parking brake function when stationary, drive-off assistance function by means of automatic release when driving away and emergency braking function whilst driving by means of action on all 4 wheels

Technology/Safety

Body, galvanised (fully-galvanised in areas at risk from corrosion), unit construction, welded to the floor pan, front and rear areas feature defined crumple zones, aluminium front wings. (12 year warranty against rust perforation)

Airbags, full-size airbag for driver and front passenger with seat position recognition; side airbags at front (thorax/pelvis airbags); head airbag system

Side airbags, rear, supplement the side impact protection in the doors (thorax/pelvis airbags)

Head airbag system, unfolds over the entire length of the side windows in the area of the first and second row of seats and protects the passengers in the front and rear seats in the event of a side impact

Integrated head restraint system, in the event of a rear-end collision, the design of the seats stabilises the upper torso and provides improved head support. This increases the level of protection and reduces the risk of a whiplash injury

Steering column lock, electric

Instrument cluster, with adjustable lighting, electronic speedometer with odometer and trip odometer, rev counter and automatic ready-check when engine starts, clock, coolant temperature display and fuel gauge

Safety steering column, includes a shunt mechanism with damping function, to supplement the protection offered by the seatbelts and airbags

Seat belts, 3-point inertia reel seat belts for all 4 seats; with belt force limiters, belt tensioners and front seat-belt reminder, colour-coordinated with the interior

Warning triangle, with bracket on the inside of the tailgate

First-aid kit, in the storage compartment of the rear centre armrest

Traction control (ASR), for good traction, reduces spinning of the drive wheels

Electronic Differential Lock (EDL), on surfaces with varying levels of grip, this start-off assistant automatically brakes the drive wheels on the surface that is too slippery, thereby ensuring smooth, powerful progress; operates at speeds up to approx. 100 km/h

Electronic Stabilization Programme (ESP), networks the ABS, EBD, ASR and EDL with its own sensors and compares the driving data with reference data; improves stability at all speeds by targeted braking of individual wheels and intervention in the engine management system

ESP with electronic cross-axle lock, the electronic cross-axle lock is incorporated in the ESP for models with front wheel drive. It distributes the drive torque by means of targeted braking actions, depending on the driving situation. When cornering, the cross-axle lock actively counteracts understeer. The result is improved traction and dynamic performance when cornering and more precise handling. Agility during steering is also improved

Power steering provides steering assistance whilst driving and makes parking easier. (Standard up to 132 kW version)

servotronic, speed-sensitive power steering. (Standard from 140 kW version)

Manual transmission, 6-speed, all-synchromesh, hydraulically-actuated dry clutch with asbestos-free linings, twin-mass flywheel

Please find out from your local Audi partner which equipment is standard and what optional equipment is available in your country.

multitronic, the multitronic generation of continuously variable transmissions, featuring dynamic gear control program and sport program; 8 different gears can be selected in manual mode; hydraulically controlled multi-plate clutch (for models with front-wheel drive)

S tronic (available for models with quattro® permanent all-wheel drive), the 7-speed, electro-hydraulically actuated dual-clutch gearbox facilitates shorter gearshift times and gearshifting with virtually no perceptible interruption in the power flow: can be operated via the shift paddles behind the steering wheel (optional) or the selector lever; in automatic mode, the driver can choose between programs D (normal) and S (sport)

quattro®, permanent all-wheel drive with asymmetric/dynamic torque distribution, self-locking centre differential, electronic differential lock (EDL) via braking intervention on all driven wheels

quattro® with sports differential, the electronically regulated sports differential distributes variable amounts of driving force to each rear wheel. The sports differential provides different amounts of torque at each rear wheel in almost every driving situation, ensures outstanding acceleration performance in corners and stabilises the vehicle's response to load change. It also ensures better direct steering characteristics and, thanks to less steering effort, more agile handling. (Available for the 3.0 TDI quattro and 3.2 FSI quattro with S tronic, can only be ordered in conjunction with Audi drive select)

Recuperation, increasing the generator voltage converts kinetic energy into usable electrical energy when the vehicle is coasting or braking. This energy is used to assist the generator during subsequent acceleration, saving up to 3 % fuel

Start-stop system reduces fuel consumption and CO_2 emissions by switching off the engine when standing, e.g. at traffic lights. For a perfect getaway, the starting process is initiated as soon as the driver presses the clutch pedal and the engine is already up to idling speed by the time a gear is selected. (Only for 2.0 TDI and 2.0 TFSI with 6-speed manual transmission)

Audi extended warranty

Audi extended warranty can only be ordered directly and on purchase of a new car; is a consistent continuation of the manufacturer's guarantee so that you are protected against risk and can control servicing costs even after the first 2 years. There is a total of 9 lifetime/total mileage combinations to choose from:

Additional 1 year Audi extended warranty, maximum total mileage 30,000 km

Additional 1 year Audi extended warranty, maximum total mileage 60,000 km

Additional 1 year Audi extended warranty, maximum total mileage 90,000 km

Additional 2 years Audi extended warranty, maximum total mileage 40,000 km

Additional 2 years Audi extended warranty, maximum total mileage 80,000 km

Additional 2 years Audi extended warranty, maximum total mileage 120,000 km

Additional 3 years Audi extended warranty, maximum total mileage 50,000 km

Additional 3 years Audi extended warranty, maximum total mileage 100,000 km

Additional 3 years Audi extended warranty, maximum total mileage 150,000 km

Equipment for the A5 Sportback illustrated (p. 2–26):
Paintwork: Ice Silver, metallic; wheels: cast aluminium wheels, 5-arm dynamic design;
Seat covers: Valcona leather, cinnamon/black; inlays: Laurel nutmeg

Displacement in cc (valves per cylinder)		2698 (4)		2967 (4)	
Max output[1] in kW at rpm		140/3500–4400		176/4000–4400	
Max. torque in Nm at rpm		400/1400–3250		500/1500–3000	
Power transmission/wheels					
Type of drive		Front-wheel drive		quattro® permanent all-wheel drive	
Transmission		6-speed manual transmission [multitronic]		6-speed manual transmission [7-speed S tronic]	
Wheels		Lightweight forged aluminium wheels, 7.5 J x 17		Lightweight forged aluminium wheels, 7.5 J x 17	
Tyres		225/50 R 17		225/50 R 17	
Weights/capacities					
Unladen weight[2] in kg		1695	[1715]	1760	[1795]
Gross vehicle weight in kg		2150	[2170]	2215	[2250]
Roof load/trailer nose weight in kg		90/80		90/80	
Trailer load limit[3] in kg	**unbraked**	750	[750]	750	
	12 % gradient	1600	[1700]	1900	
	8 % gradient	1800	[1900]	2100	
Fuel tank capacity, approx. in l		65		64	
Performance/consumption[4]					
Top speed in km/h		235	[224]	250[5]	[250][5]
Acceleration 0–100 km/h in s		8.2	[7.9]	6.3	[6.1]
Fuel grade		Sulphur-free diesel[7]		Sulphur-free diesel[7]	
Fuel consumption[8] in l/100 km	**urban**	8.1	[8.0]	8.9	[8.3]
	extra-urban	4.8	[5.6]	5.4	[5.7]
	combined	6.0	[6.5]	6.7	[6.6]
CO_2 emissions[8] in g/km	**urban**	211	[206]	234	[216]
	extra-urban	128	[147]	142	[149]
	combined	159	[169]	176	[174]
Emissions standard		EU5		EU5	

[ ] Data in square brackets refer to multitronic or S tronic.

Notes

[1] The figure stated was calculated using the specified measuring procedure (current version of Directive 80/1269/EEC).

[2] Weight of car, unladen, with driver (68 kg), luggage (7 kg) and with fuel tank filled to 90 %, calculated in accordance with the current version of EC Directive 92/21/EEC. Optional equipment may increase the car's unladen weight and drag coefficient, whereupon the possible payload limit and the top speed will be reduced accordingly.

[3] The engine's power output always goes down with increasing altitude. At 1,000 m above sea level, and for every additional 1,000 m, deduct 10 % from the weight of the outfit (trailer load limit + gross weight of the towing vehicle). Figure for trailer load limit applies to factory-fitted trailer towing hitch. If using the vehicle with a trailer towing hitch for commercial purposes, a digital tachograph may be required under certain conditions.

[4] A vehicle's fuel consumption and CO_2 emissions do not just depend on how efficiently the vehicle uses the fuel, but are also influenced by driving behaviour and other non-technical factors. CO_2 is the greenhouse gas primarily responsible for global warming.

[5] Regulated.

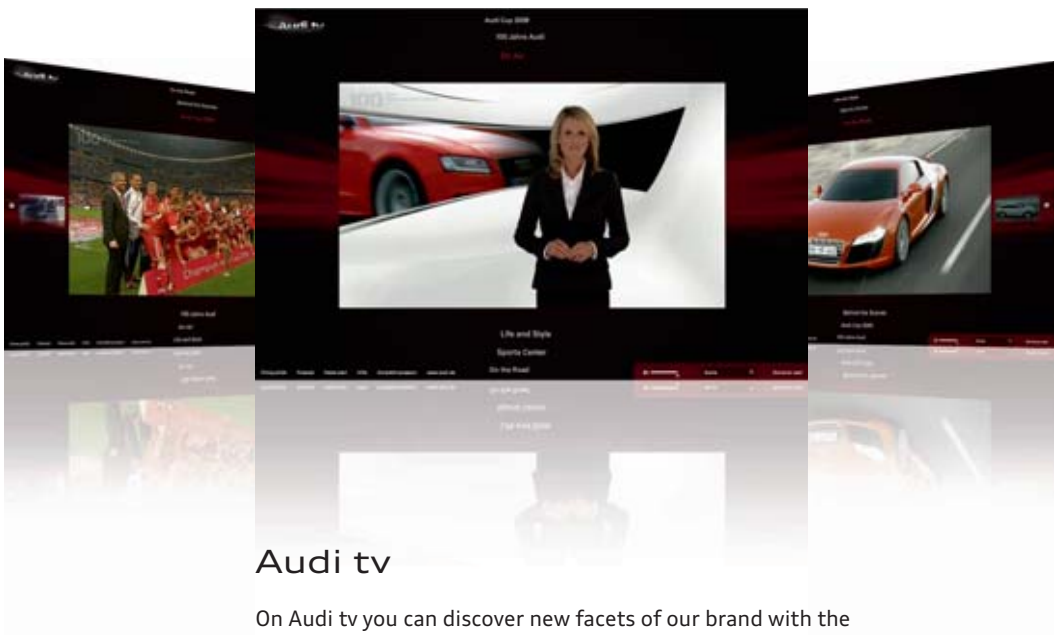
[6] We recommend using sulphur-free super unleaded RON 95 in accordance with DIN EN 228. If not available, use sulphur-free regular unleaded RON 91 in accordance with DIN EN 228; power output will be slightly reduced. Unleaded RON 95 fuel with a maximum ethanol content of 10 % (E10) can generally be used. Fuel consumption details refer to operation with RON 95 fuel in accordance with 692/2008/EC.

[7] We recommend using sulphur-free diesel in accordance with DIN EN 590. If not available, Diesel in accordance with DIN EN 590.

[8] The figures given were calculated using the specified measuring procedures. The figures do not refer to one individual vehicle and do not form part of any offer, but rather should be used purely for purposes of comparison between the different vehicle models.

Important note

Inspections are due as shown by the service display.



Audi tv

On Audi tv you can discover new facets of our brand with the four rings: exciting commentaries on our models, technical innovations, fascinating events from the fields of motorsport, tradition, culture and lifestyle. Take a look behind the scenes. The latest news every day. Round the clock.

The models and equipment versions illustrated and described in this brochure and some of the services listed are not available in all countries. Some of the cars illustrated are equipped with optional equipment for which an extra charge is made. Details concerning the delivery specifications, appearance, performance, dimensions and weights, fuel consumption and running costs of the vehicle were correct to the best of our knowledge at the time of going to press. Deviations from the colours and shapes shown in the illustrations may occur. No liability is accepted for errors and printing errors. The right to introduce modifications is reserved. Not to be reproduced, including in part, without the written approval of AUDI AG.

This brochure is printed on paper made from pulp bleached without the use of chlorine.
